

LISTEN UP

A VIDEO OUTREACH PROGRAM

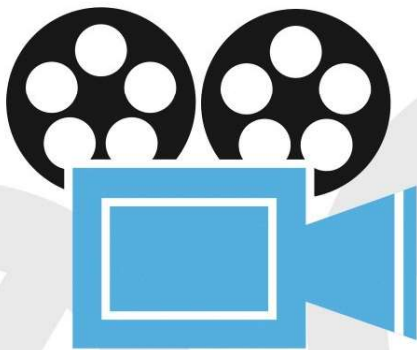

designed to make it easier for families to communicate with friends, family, and caretakers about childhood hearing loss.

You can see some examples at:
www.ohns.ucsf.edu/listenup

WHY PARTICIPATE?

Listen Up! is a tool that can help parents to advocate for their child's needs in a way that is convenient and positive. You will help create a fun and engaging video of your child that you can share with anyone you wish!

HOW DO I MAKE A VIDEO?

Making a video is easy! After discussing your goals, we will write a script for you that will be used as the video's voice over. Then, we ask you to record and capture great moments of your child. We will put a video together and give it to you.

WHAT DO THE VIDEOS INCLUDE?

Each video is ~5 minutes long and includes:

- ***A simulation of your child's hearing loss***
- ***Information on how amplification devices work***
- ***Tips on how to facilitate effective communication***
